## MOVE TO LIMIT DRAFT NUMBER IS DEFEATED

Senate Committee Rejects  
Proposal After President  
Indorses Forced Drill.

By The Associated Press  
WASHINGTON, Aug. 2.—Short-  
ly after President Roosevelt de-  
clined to sign a bill to limit the  
number of men who could be  
drafted into the army, the sen-  
ate committee rejected the  
proposal to limit the number of  
men who could be drafted at this time to  
100,000.

The committee voted down 7  
to 6 a bill which would have  
limited the number of men who  
could be drafted to 100,000 and  
to 100,000 in 1941 and to  
100,000 in 1942.

## GAIN IN OHIO JOBS REPORTED

Defense Work and Seasonal  
Upturn Responsible for  
Boost.

By The Associated Press  
COLUMBUS, O., Aug. 2.—National defense contracts and a seasonal upturn of the building industry today gave the Ohio employment picture a decidedly rosy tinge.  
At a time when a decline in employment is usually expected, the Ohio State university business research bureau reported an increase of between two and three per cent for June over the preceding month.  
Officials agreed that approximately 550,000,000 in defense contracts awarded Ohio industries contributed materially to the increase, but at the same time, W. C. Hammond, director of the Ohio state employment service, said that the defense program would not raise employment substantially until 1941.  
Hammond reiterated the desire of the federal government to make the bureau of unemployment compensation the clearing house for all labor a program begun several weeks ago.  
No Quick Boost Expected  
We do not expect an increase in employment until possibly after the turn of the year, Hammond said. It will take quite a while to get these defense programs underway and in the meantime we are getting labor ready.  
Commenting on recent advertisements for skilled labor, Hammond asserted that full cooperation of employers and employees was desired to prevent migration of labor.  
We have been asking manufacturers to get all their labor through the Ohio state employment service, he said. We have

## LAKE SHIPS TIED UP BY SEAMEN'S STRIKE

One Carrying British Armor  
Plate Affected.

By The Associated Press  
CLEVELAND, Aug. 2.—Three Great Lakes vessels were tied up in different ports today by a strike of National Maritime unionists seeking contracts with operators.  
Hays Jones, N.M.U. organizer, said the ships were the first bulk freighters on the lakes to be affected by a contract dispute which he attributed to refusal of operating companies to negotiate.  
He reported the B. F. Jones operated by Interstate Steamship Co., a subsidiary of Jones & Laughlin Steel Corp., was at the Great Northern ore dock at Superior, Wis., where all of the crew except licensed officers left the ship.  
Twenty-one seamen aboard the Carrollton, carrying 2,860 tons of steel plate reportedly intended for building British torpedos, boats, struck after the vessel put in at Buffalo. The cargo was unloaded and shipped to New York by barge canal.  
The N.M.U. has won collective bargaining elections in both companies Jones asserted, but Interstate has refused for three years to sign an agreement. M. C. Angello, Interstate president, said at Pittsburgh his company recognized the N.M.U. as bargaining agent but declined a written contract.

## Volunteers Form Home Guard Unit Backed by Upper Sandusky Legion

Special to The Star  
UPPER SANDUSKY, Aug. 2.—Twenty-three men, including the mayor of Wharton and the Crawford county representative to the state legislature, last night organized a home defense company under the sponsorship of Wyandot Post No. 225, American Legion.  
The organization meeting was held in the Legion hall here. Another will be held next Thursday night in an effort to boost membership to 150.  
The sponsors reported that undoubtedly the first enrollment would have been larger, but for misunderstanding of the nature of the defense company. It is purely for home defense and has no connection with the national guard or the army. Membership does not obligate a person to serve in the army or the guard.  
The company will drill one or two times a week for an hour at a time and will use the new U. S. army manual as a guide book. Drills for the summer of

## Parking Meters in Operation; Police To Give Out Courtesy Tickets for First Few Days

Marion's newly installed parking meters went into service this morning, the machines collecting nickels for 30 minute parking in the uptown section on Center street between Prospect and State, and on Main street between Mill and Church.

Workmen completed erecting the standards yesterday afternoon and in the early hours this morning placed meter units in position. A total of 163 meters were installed and ready for operation at 8 a. m.

## Use Courtesy Tags To Start

City police under instructions from Safety Service Director Clyde C. Caldwell were patrolling the metered sections today to give motorists information on the use of the machines. Although a program to give initial violators a courtesy tag was announced by Director Caldwell, he pointed out that parking within the zones without depositing a nickel constitutes a violation. The courtesy tickets designed only to help motorists become acquainted with the operation of the meters, will be discontinued after Tuesday.

Police officers were furnished with the courtesy tags and instructed to give motorists an opportunity to become acquainted with operation of the meters. The tags to be placed on cars parked overtime or improperly inform the violator that it will be necessary to appear in municipal court for the first offense but that no leniency will be shown for further offenses.

## Man in Charge

As the meters were placed in operation Director Caldwell announced selection of Pearl Rockwell, 44, of 1234 East Center street to take charge of maintaining and servicing the meters. He has been a member of the service department staff and in recent months has assisted with the printing of traffic laws. He will make collections from the meters and keep a complete record of receipts from each.

Selection of Rockwell was made jointly by Director Caldwell and Lawrence C. Tompkins of Cleveland. Ohio representative of the Dual Parking Meter Co. Under the contract the company provides maintenance service for the first six months and payment of a portion of Rockwell's salary. It will be contributed directly to city funds. Director Caldwell reported.

## Method of Operation

As the meters went into operation city officials reviewed briefly their purpose and use. They will be in operation each week day from 8 a. m. to 6 p. m. and on Saturday until 5 p. m. Persons driving into a metered zone deposit a nickel and the machine measures 30 minutes of parking time after which a red signal appears calling attention to the violation for overtime parking. By depositing a coin at the end of each hour the parking time may be extended indefinitely. Motorists are permitted to park free in zones where others have left before the 30 minutes paid time has elapsed.

Through today tomorrow, Monday and Tuesday police will issue the courtesy tags to initial violators citing only second offenders into court. The courtesy tickets will be issued not only in metered zones but throughout the city for overtime and improper parking. Violations for parking in alleys, fire hydrants and restricted zones as well as double parking will not be overlooked. Director Caldwell said. Violators cited for these offenses may expect to receive the usual citation to municipal court, he added.

## Use of Citation Tags

Starting next Wednesday police will discontinue the use of the courtesy ticket and use a newly designed citation tag. The new tag now being printed will constitute not only a notice to the motorist of the violation but will be in the legal form of an arrest warrant.

The courtesy tag, which you

## BOARD IS EXPECTED TO REVERSE POSITION

Neffner Makes Statement in  
Senate Case.

By The Associated Press  
COLUMBUS, O., Aug. 2.—Secretary of State George M. Neffner indicated today he expected the Seneca county election board to reverse its stand and place the name of Ivan R. Gongwer of Upper Sandusky on the Democratic ticket in November as a senatorial candidate in the 13th dist. district.

The election board has taken the position that inasmuch as a majority of votes were cast at the primary for Raymond Earl Ackerman of Gallon who died before the primary but too late for removal of his name from the ballot that no nomination was made. Neffner insists that votes cast for Ackerman were valid and that Gongwer was legally nominated. If the board's position is finally approved there would be no Democratic candidate for the office and voters would have to write in names of persons they wished to vote for.

Gongwer is reported to be planning court action to force the board to place his name on the ballot. Neffner indicated, however, that he probably would bring such an action if the board definitely refused to recognize Gongwer as the legal candidate.

## NATIONAL GUARD SIGNS 11 RECRUITS IN COUNTY

Co. D Enlistment Campaign To  
End Saturday

Eleven recruits joined Co. D of the Ohio National Guard during an enlistment campaign this week. Sgt. Clark Farley reported today.

Enlistments will be taken at the Armory until 4 p. m. tomorrow and after that time no new recruits will be accepted. Sgt. Farley said. The recruits are:

George Tanner of 230 North Grand avenue, Clifford McWhorter of Prospect, Joseph McCallister of near Caledonia, Robert Brady of near LaRue, Harold Melvin of 381 Oak street, James Fitts of near Prospect, James Carson of 126 West Washington street, Dale C. Hudson of 1015 North Main street, Arthur L. Wimer of 920 East Mark street, James H. Brandt of 277 Park street and Earl O. Simpson of 516 Bartram avenue.

## MAN HELD IN TRICKY THEFT

Calmly Carries Away Loot  
After Being Discovered  
In House.

Twenty-four-year-old Paul Phelps of Marion, who escaped by a ruse when discovered in the home of Mrs. Bertha Phillips at 304 North Greenwood street last night, was behind the bars of city prison today on a charge of breaking and entering.

He was arrested by police several hours after the incident with the help of a woman who said she found Phelps in the Phillips home.

## Lost in Sultanas

Mrs. Elmer Whitt of Columbus, visiting at the Phillips home said that at about 6:30 p. m. yesterday she found a man in the house. Police said they later found the loot at Phelps' home at 216 Patton street. It included a fox jacket, another fur jacket, ash trays, pen and pencil set and \$470, all amounting to about \$124.80 police said.

The front door and screen were unlocked but were closed at that time police were told.

Mrs. Whitt reported she asked the man what he was doing in the house and that he replied he wanted to see Mrs. Phillips. When told that Mrs. Phillips was not at home the man said he would go to the Royal Cafe on North Main street and see her.

Mrs. Whitt told police.

The man then got into an automobile and drove off.

Police were soon notified of the incident and from identifications furnished by Mrs. Whitt, said they were able to let her see and identify Phelps, without his knowledge as the man in the house. She also identified the car in which Phelps was riding police said.

Phelps was arrested on North Main street at 247 a. m.

Arraigned in municipal court today Phelps pleaded not guilty and hearing was set for Aug. 6 at 3 p. m. He was placed under \$500 bond and at noon was still in jail the bond not having been posted.

## FRENCH CONDEMN GENERAL TO DEATH

De Gaulle Who Fled to England Tried in Absentia.

By The Associated Press  
CLERMONT-FERRAND, FRANCE, Aug. 3.—General Charles De Gaulle, the French officer who formed a provisional French committee in London to carry on the fight against Germany, was condemned to death today by a military court which tried him in absentia.

Charges of treason, attacks on the security of the state and desertion to a foreign country in time of war were laid before the military court of the 15th region, presided over by General Frece.

General De Gaulle is in London. He sprang into prominence when Premier Paul Reynaud dismissed General Gamelin and reorganized the army.

## RAF BOMBERS MAKE STEADY RAIDS ON CITY

Many Other German Towns  
Constant Targets of Air  
Force, London Says.

By The Associated Press  
Virtual destruction of the great German seaport of Hamburg by royal air force bombers was claimed by an authoritative British source today while Germany countered with the statement that its own raiders had struck new devastating blows against British merchant fleet.

The British source, summing up the work of the R.A.F. in the past three months, said Hamburg was only one of the military objectives attacked in nightly raids. Thousands of bombs have been rained on the port of Bremen with its shipbuilding yards, docks and aircraft factory the same source said, and added that more than 100 German cities and towns where military objectives are situated had been attacked.

Official Germany has said little about the R.A.F. raids carried on day and night, beyond insisting that they were against non-military points.

German Claims  
Today's Nazi claim was that the air force had sunk a large merchantman a tanker and a mine patrol boat yesterday and that a submarine returning to its base, had reported sinking 72,000 tons of shipping in an unspecified space of time.

The German air force, as usual, continued its attacks on the British Isles, dropping bombs on Scotland, Ireland, Wales and Norway, the daily custom in England of dropping Hitler bombs or destruction pamphlets.

One German bomber was believed by observers to have been brought down in the sea off the northeast coast of Scotland after a Nazi squadron had dumped nine high explosive and 40 incendiary bombs—mostly on a golf course outside of town—this morning.

Eye-witnesses said they saw the plane fall into the water after British fighter planes had splattered it with tracer bullets.

No casualties were reported from the German attack although the bombs blasted craters 40 feet wide and 20 feet deep.

Bombardment of a wireless station and crippling of a German supply ship in air operations off the Norwegian coast were reported by the admiralty.

The air ministry said a "successful" daylight raid had been made also yesterday on the German-held airport at Cherbourg, France. It acknowledged, however, that three of a strong force of coastal command warplanes failed to return.

On the other hand the German high command said "all eight" British bombers were shot down before they could reach their objective at Cherbourg.

Britons wondering whether the Nazi blitzkrieg would come soon—or at all—puzzled over a "tabloid" leaflet raid by German bombers last night. Some commented that Adolf Hitler might be planning the slow war of blockade instead of the lightning tactics he has used before.

## The Stars Say—

For Saturday, Aug. 3

SWIFT-MOVING events with issues of prime importance to be decided, are presaged from the sidereal operations of major planets. There is likely to be decisive or drastic action in putting over matters that seem to concern group efforts for furthering audacious programs. In this the support and solid cooperation of superiors, those in prestige and financial standing, are imperative.

Those whose birthday it is may look for an important year in which events may come with suddenness and power, requiring drastic action for their satisfactory adjustment. This may be in connection with groups, either social, humane, or with idealistic objectives. The support of those in high places is needed in pushing to desired ends.

A child born on this day may be aggressive and energetic, ambitious, public-spirited, possibly having advanced ideas for the general welfare.

# Social Affairs

**THIRTY-FIVE** women were at the Marion Country club yesterday for their weekly day of golf, luncheon and bridge.

After a morning of golf the following awards were made:

Low gross, Mrs. Howard R. Stoll and Mrs. Robert Owens, low net, Mrs. Don Howard, Mrs. George DeWolfe and Mrs. Elmer Darrell, low putts, Mrs. John Peacock, Miss Jean Knapp and Mrs. O. G. Stephenson.

Hostesses were Mrs. Peacock, chairman, Mrs. Bert Brashares, Mrs. D. W. Brickley Jr. and Mrs. J. R. Hayes.

A corn roast originally planned for Sunday for members of the club and their families has been postponed indefinitely, the social committee announced.

Next week's women's meeting at the club will be held on Thursday as usual instead of Tuesday as announced by the club calendar, due to a change to entertain Lima golfers next week.

**MRS. JAMES HERRIGEL**, the former Miss Eileen Feely, was given a miscellaneous shower last evening when Miss Jean Snyder of Pennsylvania avenue entertained the L. S. D. club and guests.

Original poems led Mrs. Herrigel to her gifts, hidden in an umbrella suspended from a chandelier in the dining room.

Miss Margaret Walker won honors in bridge and Mrs. Herrigel won the award for high score in contract rummy. A guessing box was won by Miss Constance Butterworth.

Guests were Mrs. Donna Hefelfinger of Mansfield, Mrs. Dolores McGuire and son Stephen of LaRue, Mrs. Maynard Snyder, Miss Sharon Newlove and Miss Margaret Bosh.

**Busy Moments as the Farm-house People Prepare for a Possible Attack by Leslie**

**WITH A** last reminder of my father's injunction to lock their doors into the corridor and open them to no one whose voice they did not recognize, Lillian and I left Queen Olga and her daughter in their rooms whose windows we had just shrouded against escaping light and walked down the corridor toward my father's suite.

The Chief must expect something doing. Lillian said as we neared my father's door. When he starts in testing window fastenings and coverings windows with blankets you may be sure he's preparing for battle murder and sudden death.

I must be jittery. I told myself as another involuntary little shiver swept over me at her title quotation. But ever since the moment when I had seen the venomous age in Jack Leslie's eyes as Dicky told him how he had been duped and how both Queen Olga's servants and the persons of Mary and Noel were safely in my father's keeping at the farmhouse, I had been obsessed with the conviction that though Jack Leslie might be compelled to give up his own life in the revenge he was plotting against my father and the rest of us who had been instrumental in foiling his latest attempt to get Mary and Noel into his clutches, he would be determined to take as many of his opponents with him as he possibly could.

Not that Leslie was counting upon either death or defeat for himself. He had been fooled and fooled by my father's strategy but we all knew that he believed himself to be possessed of the final means to victory, the knowledge of the secret passage into the attic of the farmhouse, the two hundred-year-old tunnel and stairway.

# Laughs Plentiful As Drivers Start Using Marion's Parking Meters

Looking for places where there was still some paid-up time left on the meters so they could park for a few minutes or someone else's nickel.

A woman driver whose knowledge of traffic laws apparently is limited, double parked on East Center street for a moment, rushed into a store and obtained some nickels and then proceeded to park properly in a meter space. Observers wondered why the woman chose to run the risk of getting a citation for double parking to getting one for failure to insert a coin in the meter.

There were a number of motorists who wondered how the meters operate and an even larger number of bystanders who were willing to give some free advice in return for the privilege of listening to the nickels tinkle into the devices.

Best thing that ever happened to Marion was one business man's comment. These streets aren't private parking lots. Everyone who can afford to drive a car can afford to pay to park it. It'll put a stop to people parking their cars at 4 o'clock Saturday afternoon and leaving them until 11 at night.

A professional man confessed to having spent five minutes trying to find where to put the nickel in before he finally discovered that the large arrow points directly to the slot.

The meters are going to be a boon to many a man who has heretofore driven uptown every morning. This noon the general trend was that from now on we walk and it wasn't said in a manner belittling the new meters—just an excellent excuse they're going to have to get a little exercise.

**"Well, Henry—what are you going to do about the heating plant?"**

You know Edna is going to be home next winter. If she is to have parties and friends in often, you've just got to do something about your heating plant.

Last winter was a severe one. Thousands of heating plants worked overtime. Thousands need repairs—some of them should be replaced. The time to have this work done is now. It's the slack season for repairmen, and installers. To locate the right man for the job, just check the ads in this paper.

If your grown children are to be with you next winter, overhaul your heating plant. Young people like a comfortably heated home.

## 84 Girls in Y Swim Classes

Eighty four girls, ages 9 to 15 were present Tuesday at the first 'learn to swim' class at the Y M C A pool. The new program, to be an annual affair is sponsored by the Y and offers young girls in Marion an opportunity to obtain free lessons in swimming.

Due to the large attendance and the size of the pool it is necessary to divide the pupils into five groups according to their age size and the section of the city they live in. Classes are to be held each Tuesday and Thursday over a period of five weeks. They will be for a half-hour duration beginning at 9:30 a. m. Dick Brandt Y physical director and former varsity member of the Wittenberg college swimming team is instructor.

## First Learns To Float

The girls are started off by learning the dead man's float. After they have mastered this they are introduced to the flutter board which is similar to a surf board and designed to strengthen the legs as they travel the length of the pool several times. This gives them a feeling of confidence and buoyancy in the water and after about 15 minutes practice of combining the dead man's float and the leg action of the flutter board the pupils are coordinated pupils will be able to swim the length of the pool. Those who do not have such a high degree of skill will take a little longer and receive more individual instruction. Approximately 75 percent of the pupils should be able to swim after taking the course Mr. Brandt estimated.

Four of the beginners learned to swim after taking their second lesson. They are Jeannine Combs of 934 Bennett street, Patricia Schull of 313 Chestnut street, Kathleen Welch of 378 North Main street and Ruth Phillips of 125 LaPorte street.

## CONFERENCE ON GAS RATES HELD

**City Officials and Company Manager Discuss Proposed New Schedule.**

Negotiations between the city of Marion and the Ohio Fuel Gas Co. to establish rates for the next five years continued last night at a meeting of Mayor Snare, two council committees and C. E. Sechrist, company manager at Marion.

Mr. Sechrist submitted figures in substantiation of the company's recent proposal for an increase in rates. The company has proposed the present rates which expire Aug. 22 continue for three years but that the rates increase in the fourth and fifth years.

**City Expense Rise**  
Mayor Snare quoted Mr. Sechrist as saying the company's expenses involving increased taxes and necessary overhead, have risen eight per cent in the last five years. The proposed rates for the next five years would amount to an average increase of two per cent the mayor understood.

In considering whether the company's request for a rate increase is justified the city must also determine whether the present rates are justified the mayor commented.

Council ordinance and franchise committee which are handling the negotiations made no decision. They will meet early next week possibly with Mr. Sechrist in attendance and attempt to decide upon a recommendation to council.

**City's Counter Proposal**  
The city has submitted a counter proposal that the present rates be continued for five years. Councilmen present last night at the meeting in the mayor's office were Mayor Snare, Walter A. Dorsey and Harry Wilhelm forming the ordinance and franchise committee, and Welcome P. Case Jr. and George A. Plimm who form the street light and gas committee along with Mr. Rogers.

City council as a whole is expected to act on the gas rate question in advance of the expiration date of the present rates.

## CAREY PILGRIMAGE EXCURSION PLANNED

Arrangements Under Way for Services on Aug. 11.

A special excursion train to Carey on Sunday, Aug. 11, for the opening of the annual August pilgrimage devotions at the shrine of Our Lady of Consolation has been announced by F. A. Powellson of Columbus, division passenger agent for the Chesapeake & Ohio Railway Co.

Hundreds of members of the Catholic faith in Marion and vicinity join in the pilgrimage each year, many taking advantage of the excursion fares.

This year the train will leave Columbus at 7:30 a. m., stop in Delaware at 8:07, and in Marion at 8:45, arriving in Carey in time for all the impressive services of the day. Returning, the special train will leave Carey at 5 p. m. Tickets for the trip may be purchased in advance, according to Mr. Powellson.

The day's services will include masses, sermons and a candle procession.

This year will be the sixty-fifth that pilgrimages have been made to the shrine.

The parish and shrine are in charge of the Friars Minor Conventual, an ancient order in the Catholic church, under whose jurisdiction it has been since June 1, 1912. Rev. Father Paul Vell-rath, pastor of the church, has served the parish for 18 years.

In addition to the large church, parochial school, parish house, pilgrim house and apostles house on the grounds also stands the sanctuary of Our Lady of Consolation, which was erected 60 years ago.

A statue of the Virgin Mary with a child in her arms, known as the "Our Lady of Consolation," stands in the center of the grounds.

## Claridon Church To Observe 120th Anniversary with Program Sunday

### CLARIDON METHODIST CHURCH

The Claridon Methodist church, home of William Parker. About 1833 a hewed log house 30 feet square was built on land owned by the ancestors of the late J. L. Douce, about a mile northeast of Claridon. It was known as "English Chapel." Twenty-two years later a larger frame church was built in Claridon.

Cornerstone of the present building was laid Aug. 3, 1855 during the pastorate of Rev. W. B. Taggart. The church was dedicated on Jan. 5, 1885, while Rev. E. A. Thomas was pastor.

Forty-five pastors, including Rev. Angle, have served the 120-year-old congregation, which now numbers 75 members.

### Basket Dinner

At noon there will be a basket dinner at the township hall, followed by a program at 2 p. m. The program will open with a prelude by the Kirkpatrick Methodist church orchestra. Sam Plummer of Marietta will be the speaker.

The church had a gala celebration when it reached the 100-year mark, and has since celebrated the 110th, 115th and 118th anniversaries.

Early history of the county recount that the first religious society in Marion county was of the Methodist Episcopal denomination and was formed in the log cabin home of Jacob Ayer near the village of Claridon in the autumn or winter of 1820. The organization was effected prior to the organizing of the county and before Claridon, the prospective county seat, was platted.

# FLYNN PREPARING FOR FALL CAMPAIGN

Changes in National Committee Setup Expected.

By The Associated Press  
WASHINGTON, Aug. 2—Reorganization of the administrative set-up of the Democratic national committee was expected in political circles today to be started when Edward J. Flynn takes over the party chairmanship Aug. 17. Appointment of Flynn, New York national committeeman and Bronx Democratic leader to direct the third-term campaign of President Roosevelt was announced yesterday after a White House conference.

Flynn, who is giving up the chairmanship to head the New York Yankees and perhaps take another private job on the side, would not say when he intended to resign as postmaster general. The cabinet place frequently goes to the national committee head but there was no indication that Flynn would get it.

As state chairman for New York a post he will retain, Flynn will be on hand to consult with the national political scene.

The new chairman long has been a supporter of the President.

# SCHOLARLY REFUGEE FREE AFTER REDEMPTION CHECKS

Dr. Jizak Ben Zion Westrich, 31-year-old scholarly German refugee arrested here last week and turned over to Columbus police, was released after fraud charges filed against him in Columbus were dismissed. Marion police reported today.

Following his release, Dr. Westrich returned to Marion, obtained his car and a number of books held by police here and continued a book-selling tour of colleges and universities officers said.

The refugee, who identified himself as a former professor of law in Germany and one time legal aide to the German delegation to the League of Nations, was arrested for investigation here after he allegedly attempted to open a checking account at a Marion bank with a questionable check drawn on a Newark bank. The charges filed in Columbus were in connection with other questionable checks drawn on the Newark bank and were dismissed when the checks were redeemed according to police reports.

# SPARK FROM WRENCH BLAMED IN PAINT FIRE

By The Associated Press  
CAMDEN, N. J., Aug. 2—A spark from a repairman's wrench was blamed today for the disastrous series of explosions and fires which killed at least four persons and destroyed a four-block area of mid-town Camden.

Fire Chief John H. Lennox said the spark apparently ignited a tank of naphtha in the R. M. Hollingshead Paint Co. plant.

Meanwhile in a night-long search for five missing persons, two bodies were taken from the twisted wreckage bringing the total recovered to four. Clearing the way for the searchers, dynamite yesterday leveled tottering factory walls.

# WAGE HOUR RULING

By The Associated Press  
CLEVELAND, Aug. 2—A federal court ruling that the wage hour act applied to commercial printing firms doing interstate business was regarded by enforcement officers today as a weapon for ending noncompliance in the industry. Federal Judge Paul Jones enjoined the Hersh Printing Co. here from continuing alleged violations and ordered 13 employees paid \$1,500 in back wages.

# Unconscious Crew Members Holding Secret of Wreck

By The Associated Press  
AKRON, Aug. 2—Locked in the unconsciousness of two crew members today was the secret of why they directed a Pennsylvania railroad motor car in which 43 persons rode to a fiery death.

From Englewood, Thomas J. Murtagh, 49, of Orville and conductor Henry Shafer, 57, of Akron, said officials hoped to get an explanation before completing their inquiry into the Wednesday night crash of the coach and a freight train on the road's Hudson Akron single track.

Both Murtagh and Shafer, two of the three survivors, were injured seriously and investigators said they did not know when they could be questioned.

**Orders Not Followed**

Rail officials reported the coach crew received an order to get a siding and allow the 73-car freight train to pass, but continued a mile past the siding.

The crew of the motor coach not only disregarded their orders to stop at switch No. 1 Silver Lake and to wait in the siding but continued on the main track from Silver Lake toward Akron, disregarding another rigid rule as permission was required from the block (signal) operator to make this further movement, said a statement from the railroad. This permission was not obtained.

F. W. Krick, division superintendent for the railroad, said the finding of a copy of the switch order in Shafer's clothing, previously conclusively the crew had received its orders and is a fruit.

It seems to me to be one of those inexplicable moments, Krick told Coroner H. E. Ames.

The engine powered a steel motor coach to shuttle service on the 12-mile line between Hudson and Akron and was enveloped by flames as a line of freight trains in the impact with the freight train bound from Columbus to Cleveland.

**Prosecutor Ends Probe**

Prosecutor Alva J. Russell of Summit county said he closed his investigation of the wreck, finding no evidence for criminal proceedings against Murtagh and Shafer.

Railroad officials reported no disciplinary action would be taken until they had talked with the two crew members who leaped to safety along with a rail road section hand. The Ohio public utilities and interstate commerce commissions also have started investigations.

Grieving relatives filled Akron and Canton with undertakings establishments preparing to bury the 43 victims. 11 of them Pennsylvania railroad employees. Most of the 32 passenger victims lived in the Akron district.

# FORCED DRILL

(Continued from Page 1)

said the service training bill and its use is essential to adequate national defense.

Declaring he had abandoned long ago the practice of sending bills to be rushed through congress, Mr. Roosevelt added that he was leaving to the legislature the age brackets for regular law under a compulsory training law.

The simple fact is he continued that the laws of the present war show defense means total defense. Under modern circumstances he continued that means a lot of new machinery and equipment which the nation hasn't got but is beginning to get.

He said that William S. Knudsen in charge of defense plans for industrial production told him the other day that a lot of companies were producing war material. He said that he had 100,000,000 worth of orders for all kinds of materials and machinery without waiting for actual contracts.

The United States he declared had turned from the present war that nations without trained man power were in a bad way.

**Mass Training**

Proposals to delay congressional action on conscription pending a drive for voluntary one-year enlistments in the army gained new adherents in the senate today.

With the military committee considering an amendment to limit to 1,000,000 the number of men who might be drafted under the Burke-Wadsworth compulsory service bill some members said it was unlikely that any agreement could be reached until late next week.

In the meantime several senators were preparing one year enlistment amendments to existing legislation so as to empower the President to call to the national guard and reserve officers into active training.

There were indications that the idea would have strong support for both Democrats and Republicans who have opposed the Burke-Wadsworth measure or who have been reluctant to approve a conscription plan calling for registration of about 12,000,000 men from 21 to 30 inclusive.

Senator Filander (D-La.) proposed that the Burke-Wadsworth bill be amended to provide for a 30-day period for receiving voluntary enlistments before conscription would begin.

**Plans Substitute**

Senator Johnson (D-Colo.) said he planned to offer an amendment to eliminate peace time conscription returning the power to calling for registration to the 21-30 age bracket but substituting a system of voluntary enlistment for the subsequent draft.

Arguing that conscription was necessary, Senator Lee (D-Okl.) said he thought an amendment to limit the number of draftees to 500,000 in October and 500,000 new spring would allow peace fears that we are going to call on everyone between the ages of 21 and 31.

On the other hand Senator Burke (D-Neb.) a coauthor of the bill said he thought it would be a mistake to say that is the end of it. He contended that discretionary authority should be given the President to increase the number of draftees if that became necessary.

Support for conscription came yesterday from the national defense commission which said that the selective system would prevent the disruption of industry through the entry into military service of many who would be more needed in industrial production because of special skills.

# ALIENS, NOT 'AGENTS' HELD IN CANAL ZONE

By The Associated Press  
WASHINGTON, Aug. 2—The war department today ruled as erroneous an announcement by Secretary Stimson yesterday that 41 foreign agents had been detained in the canal zone.

Eighty-one aliens have been detained for deportation or other disposition, the department said but it was admitted that the army did not know whether any of them were foreign agents. Perhaps 60 or more of the 81 were reported from Panama to be of German origin.

Officials of the Republic of Panama said the aliens were known generally as refugees.

An army official said that the announcement made by Secretary Stimson yesterday was the result of an error in transmission. The word "agents" was said to have been misinterpreted for "agents" in a verbal report of the detention.

# ORSON WELLES FINALLY STARTS HIS PICTURE

By The Associated Press  
HOLLYWOOD, Aug. 2—After almost a year in Hollywood, Orson Welles officially starts shooting that much delayed and highly publicized first motion picture today.

It is Joseph Conrad's "Heart of Darkness" which he announced for his film debut when he arrived from New York last summer and for which he grew that famous beard. (Filming required scenic backdrops which would have been too costly.)

Nor is it Smiler with a Knife, subsequently identified as definitely his first picture.

Its Citizen Kane, an original Welles story and although today officially its first under Welles, had announced only that he was making tests but at a party for the press last night he said two weeks of filming already had been completed.

# WILLKIE SEES AID FROM INDEPENDENTS

Candidate and Kansas Editor Talk Over Campaign.

By The Associated Press  
COLORADO SPRINGS, Colo., Aug. 2—Wendell L. Willkie thinks the coming election will be decided on issues rather than party lines.

Willkie made that clear yesterday in a joint press conference with William Allen White, the Emporia Kan. editor.

Questioned by reporters, Willkie said he believed fully half the voters are independent—they cross party lines very easily.

There used to be pride among many people about their party partisanship, Willkie continued, but they are proud of their independence.

White expressed a similar view, telling reporters that independent voters would aid Willkie in the November election.

The general drift is toward us, I think it is in the stars, White added.

The independents are a big definite minority that might become a majority in any election, Willkie remarked to reporters that new census figures had demonstrated that Washington, D. C., was a big city. While many cities lost population during the last decade the nominee said Washington gained.

I shall have something to say about that during the coming campaign, he said.

The nominee made public a telegram from Rep. Robert G. Allen, Democrat of Pennsylvania, a third-term opponent, pledging Willkie full support.

# Evangelist To Expose Methods of Fake Mediums

Methods commonly used by fake mediums, fortune tellers, palm readers and astrologers will be exposed tomorrow night by Rev. Bernard Mason, Los Angeles Calif. evangelist, musician and magician who is conducting a series of services at the Chauvin pavilion.

Said messages read by an assistant but unseen by Rev. Mason will be answered in the demonstration by the scientific methods used by magicians and without any help from the spirit world, he has announced.

Rev. Mason said his purpose in exposing fake mediums is to help save Americans the millions of dollars they spend annually with them. He said he had challenged any medium to reveal the contents of a sealed envelope he carries with him without the envelope leaving his possession.

The service tomorrow night is scheduled to start at 8 o'clock and a short musical program will be given by Rev. and Mrs. Mason before the demonstration. A free will offering will be taken.

# Army Forces Move Into Wisconsin for Extensive Maneuvers in Field

By The Associated Press  
WASHINGTON, Aug. 2—At peace-time peaks in training and equipment units of four United States armies were moving by rail and road today toward imaginary front lines or theoretical battlefields.

More than for the most extensive field exercises since the World War 301,000 regular army troops and guard and reserve troops prepared to give a preview of mass maneuvers which if congress approved may become a regular practice.

Extending its former policy of holding maneuvers in only one army area each year the war department has ordered the exercises in all four areas to be possible mobilization of all or part of the national guard for a full year.

The length of the maneuvers has been extended from 14 days to 31 days on top of an extra week's field training which was given to the national guard during the last year.

Although there are still some shortages in modern weapons and supplies the war department said that the troops would go into mock action with more complete peace-time equipment than ever. All regular army troops and many guardsmen will carry new semi-automatic rifles. New anti-tank guns will be employed. An increased number of motor transport units will be used.

Markedly absent however will be the training tanks of the armored forces. Two divisions in process of organization will continue to train as units rather than be watered among the four armies.

Trucks and cars will be used in the maneuvers to simulate tanks. Planes as well will be limited to avoid hampering the air corps' expansion.

Largest of the concentrations already is under way in northern New York where 91,000 officers and men of the first army are assembling in the Plattsburg-Watkins area for maneuvers Aug. 5 to 25.

Numbers of troops and dates of the exercises are:

Second army 65,000. Sparta Wis. Aug. 11 to 31. Third army 65,000. Sabine R. or Alexandria La. area Aug. 4 to 24. Fourth army divided between Fort Lewis Wash. and Camp Ripley Minn. Aug. 4 to 24.

# British Keeping Watch As Duke and Duchess Sail

By The Associated Press  
LISBON, Portugal, Aug. 2—The Duke and Duchess of Windsor were enroute to the Bahamas by way of New York today possibly under long range protection of British warships guarding against any attempted German or Italian naval coup.

This is what Mr. and Mrs. Windsor as they appeared on the passenger list took with them when the American Export liner Excalibur sailed late yesterday afternoon.

Three dogs 52 pieces of luggage an old portable sewing machine a set of golf clubs four basket boxes of old Madeira and por wine one 1940 model limousine and trailer.

The ships sailing was delayed 40 minutes by the duke who was driven to the pier by his host of the past month the Portuguese banker, Ricardo Espírito Santo.

The Windsor have a veranda suite with a private desk designed for use as a gun turret in case of American entry into war should convert the Excalibur into an armed auxiliary cruiser.

Occupying cabins off the veranda which will serve as a private dining room were the five other members of the party—Capt. George Wood the Duke's aide camp and Mrs. Wood. Detective F. Fisher of Scotland Yard and the duchess two maids.

Among other passengers were William Phillips U. S. ambassador to Rome and his daughter, Anthony J. Drexel Biddle Jr. ambassador to Poland, George Gordon minister to the Netherlands and Capt. John A. Lodge, retired embassy naval attaché and naval attaché for air at Brussels. John Cuddeah, ambassador to Belgium made a last minute change in plans and did not sail.

# MORE CITY SUPPLY CONTRACTS ARE LET

Firms To Furnish Stone and Bituminous Mix.

Additional contracts were awarded Thursday to firms represented in recent bids submitted to the city for the purchase of various street materials and supplies. Clyde C. Caldwell, sales service director reported.

J. M. Hamilton & Sons was awarded a contract for 3,000 tons of rip rap stone in ledge on a bid of 10 cents a ton. The bid was five cents under the next lowest price. The company also was given a contract to furnish 8,000 tons of crushed rip rap stone on a bid of 32 cents a ton. The successful bid was 23 cents under the next lowest price.

O. H. Road Improvement Co. was awarded a contract for 7,000 tons of bituminous mix at \$4.75 a ton, a price which was 7 cents per ton lower than the next lowest bid.

In other cases where as four local concerns submitted identical prices on various materials including limestone, sand and cement all bids were accepted. Because of the uniformity of the prices the purchases will be distributed equally among various firms. Director Caldwell said.

them hopeless drips I could have done just as well in my own home town, maybe better. I wanted to get married, but not to that kind. Dan was like the man from Marion. She was in her late twenties, getting self-conscious about her age. Here was a man neither old nor cullow, a man who looked as a man ought to look, handsome and lean and healthy. He came back a couple of times with Julia for fittings, and she found out who he was, that he was a widower and that he was stationed at West Point. She couldn't have been more impressed if he had been the Prince of Wales.

## Insanely Jealous

Gradually Julia's clothes became Mimi's problem. Every two or three months they would come in for a new outfit, between times he or Julia would write for little things the kid needed. Mimi grew to look forward to these letters and to the shopping trips. Once they came just as she was going to lunch and insisted that she lunch with them. After that they were in town.

And then, quite suddenly, she lost her job.

It was anything to her discomfiture. The store was reducing, she discovered, and they were only taking in college girls. She could not get work. And she couldn't go home. Her family had con-

signed her to pardition 10 years before and in the meantime her mother had died and her father married again.

Her savings dwindled in desperation, she took anything she could get. She worked in cheap Broadway restaurants; she even washed dishes for a week. Then she got sick.

But Dan and Julia were looking for her. They found her, and Dan asked her to marry him.

She was pacing nervously from window to door and back again. The cigarette had burned almost to the edge of the chair. I got up from my chair and extinguished the stub in an ash tray. She paid no attention to what I was doing.

"You see," she swallowed painfully. "I've always known he did it because he was sorry for me. That he's never loved anyone but his first wife. I've tried and tried not to let it matter, just to go on loving him anyway, but once once in a while I break out and do something silly, like trying to make him jealous, or being sure he's having an affair with some woman."

She paused to moisten her soft-curved lips with the tip of her tongue. I don't think I ever felt so sorry for anyone in my life. But I don't speak just to feel for her to go on. Anything I could have said would have seemed too hollow.

"That's why I drive so much at night," she said at last in a stammered voice. "Sometimes—sometimes I imagine him. I have spells when I imagine with jealousy. It's destroying me. I know it. I know it. I can't help myself. I'm always bitterly ashamed when I find he goes just where he says he does. But the next time I do it all over again. Once I got the idea he might leave the meetings early and go on somewhere else, so once in a while I drive around and around, watching his car to make sure it's still parked where it was. One night—one night I picked up Dan's slip and saw a man come out with a box of flowers and get in his car and drive away. It was dark, but the light from the show window filtered out, and it looked like Dan's car and the man looked like Dan. I went through hell that night. I walked the floor waiting for him. I might have done something terrible—irrevocable. But when he came in he was in uniform—it was an American Legion meeting, or something of the kind—and the instant I saw him I remembered that he had gone in uniform that night. And the man I saw was in civilian clothes. Of course it wasn't Dan. But that just shows you—"

"Ingratulating"

"Have you ever let him know you were jealous?"

"Just once. When we were first married. He snubbed me so frightfully that I've never dared speak of it again. Kay, a woman is at a terrible disadvantage when she's in love. I'm so afraid that I'll lose what little I have. Not that it's such a little thing to be his wife, to make his home for him and darn his socks and see him every day and—be here when he wants me. If I wasn't a fool I'd be happy, wouldn't I?"

There wasn't any answer to that, and she didn't seem to expect one. I watched her draw up a chair and sit down facing me. She did not relax, but her face had smoothed out a bit, as if the painful confession that had been a relief. Like drawing an aching tooth.

"I was going to tell you about Sandra, wasn't I?" she asked presently. "I didn't mean to talk so much about myself. I just

wanted you to understand how such a thing could happen.

"Jeff still had a year at the Academy when Colonel Tack died and Sandra came to New York. Dan suggested that I ask Sandra to West Point for a visit so I could see her."

"I liked her very much at first. She's—she was ingratiating, you know. Dan thought she was perfect—always did I noticed that of course I wasn't very happy, but I hadn't yet learned that there was no use trying to make Dan jealous. He just didn't notice. There were flocks of cadets around the house all the time, and they all made a fuss over me. You know how kids are—and I used to play up in the hope that Dan would see I was still fairly young and desirable. But as I say, Dan didn't notice."

To be continued.

## U. S. Maps Plan To Keep Mountaineers Happy So They Won't Burn Forests

By The Associated Press. ATLANTA, Ga.—The government is planning to fight a strange epidemic of southern forest fires with fiddles.

They are going at it that way because they have traced the fires to human "insecurity." They figure that music hath charms to soothe the fiery breast; music and some other interests which also be employed in the campaign.

There are 9,000,000 acres of forest land in the south. Over half the area is burned every year, amounting for nearly half the nation's forest fires.

Foresters reported that half the fires were set deliberately by the backwoods people among the 100,000 residents within the reserves.

The government sent down Dr. John P. Shea, University of Kansas psychologist, to find out why.

Bored to Death. The mountaineers explained that the intentional fires killed both weevils, snakes, ticks, beetles and fever germs, kept their fields from choking with brush, and "cleaned up the woods."

After living among the mountaineers several months, Dr. Shea reported they were kidding—probably kidding themselves—probably kidding the government.

They really set the fires, he concluded, because they were bored with the traditional recreations of "settin', spittin', and whittlin'" and because of a poverty neurosis.

The biggest money most of them had ever seen was the \$30 a month earned by the civilian conservation corps boys who had invaded their mountain retreats. The CCC's activity included fighting fires. Therefore, "Make 'em sweat to earn that pay..."

## Our Next Vice President Is a Farmer

CHARLES LINZA McNARY  
On His Oregon Ranch

By The Associated Press  
No matter which party wins in November, the next Vice President of the United States will be a farmer. Here's proof.

CHARLES L. McNARY lives on a farm near Salem, Ore. "Firmly," as he calls his home, is a community showplace has filbert, walnut, cherry and pear orchards. McNary developed the largest prune on the market sells its juice as a breakfast drink. The 66-year-old senator from Oregon in 1926 sponsored the McNary-Haugen bill (vetted by Coolidge) to subsidize U. S. grain growers to sell abroad. He has always supported public electric power—one reason being to get cheaper electricity for farmers.

HENRY A. WALLACE has achieved marked success as a corn husbandman and cattle breeder. Incidentally he founded those corn-husking contests. He raises corn and wheat in Iowa, developed a new (Hi-Bred) corn that yields four to 10 bushels more an acre than ordinary varieties. He is the third of his family to edit the weekly Wallace Farmer and Iowa Homestead. He thinks reciprocal trade treaties help agriculture. And he was one of the founders of the AAA.

### Flattery

Most of us like a little subtle flattery and by the same yardstick most presume resent flattery that is crude or too obvious. But in the case of one youngster in our neighborhood flattery assumed a forthrightness that became comical instead of annoying. The young lady who is somewhere near the seven-year mark was talking to her mother and the conversation went something like this:

Mom, how old are you?

Thirty nine.

You look like you're only 20.

## How Furniture Can Get Safely By Danger of Summer Drink Stains

Its cold drink time, which means that many a hostess is torn between the happiness of hospitality and the fear that her furniture is going to be a mass of rings, marks, dents and scratches. No matter how many coasters are sitting around waiting to be used it is inevitable that water and alcohol rings will mar some polished surface. The best thing to do is to use as much summer furniture as possible, tables with those plate glass tops that won't look any worse if a whole tray of drinks splashes all over them. If wood-topped tables are in use, however, something can be done, especially if the table is a very good one. In many cities, there are shops that specialize in durable finishes for furniture. Have your dining room table finished with this process and you can sit back and laugh at water spots or heat spots. Not an inexpensive treatment, but worth its cost.

### Out, Spot!

The filmy gray spot which is an aftermath of a water ring often yields to a few rubs of a cloth on which a drop or two of household ammonia has been poured. After this, rub with a clean cloth and then polish with oil and a soft cloth. To clean water spots on waxed floors, rub in circles with a flannel cloth and turpentine, following with a clean polishing cloth.

Alcohol spots require prompt attention, a quick rubbing with a clean cloth. Rub with the fingers rather than waste time looking for a cloth. It will help return the finish. Get after the ring or spot as soon as possible with lemon oil (linseed or prepared oil) plenty of vigor. Some housewives swear by rottenstone and linseed oil rubbed on in circles, using plenty of linseed oil to lubricate the rottenstone. The rottenstone must float in the oil or it will scratch. Use your regular furniture polish to restore the luster. Most shops that go in for very fine furniture have special waxes and polishes for renewing surface finishes.

### Relouching Jobs

Often a good going over with furniture polish will cover up scratches because the stuff contains dye or stain enough to darken wood that has been bared by a scratch. Scratches on mahogany may be relouched with a little permanganate of potash. A bruise in the wood, if it is not too deep, will often yield to a good oiling and rubbing. If the dent is deeper than a superficial bruise, moisten soft thin blotting paper in hot water and gently apply heat by means of a hot iron. The moisture and heat swells the wood and the dented part rises. This, of course, is not possible with veneer, for this is only a thin wood surface finish fastened to a wood backing.

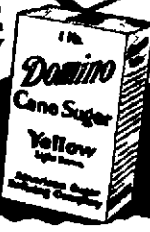

If there is no furniture polish at hand, get four ounces of beeswax and melt over water. When dissolved, remove from fire and stir in a pint of turpentine. Stir until the mixture is a thick batter and put up in a jar to be used as needed. The hand is the best wax rubber as its warmth softens the wax. Finish by rubbing with soft flannel.

As place favors at a birthday party for a two-year-old child, frost firm cart-wheel cookies with powdered sugar frosting colored red. While frosting is moist, place upright in the center a stick of red and white candy about three inches high and five-eighths inch in diameter. Round the edge put a row of five animal crackers facing in the same direction. These favors resemble miniature merry-go-rounds and please both children and mothers, being edible and easily digestible.

## DOMINO DELIGHTS FOR THE COOKIE JAR

Make crisp, delicious cookies flavored with Domino Yellow (light brown).

Take SUGAR CANE SUGAR

When whipping cream to be mixed into frozen foods, it should be stiff enough to form into fancy shapes. The softer cream makes a creamier frozen product.

Why not can cranberry sauce now to be used as a refreshing, ice cold dish next summer?

Practically all rubber articles which have grown hard and lost their elasticity may be softened by a simple process. First cleanse of pickle relish and top with cast. The article by scrubbing thorough-ly with a brush dipped in warm water and place in a solution of one part of ammonia to two parts of water, allowing it to remain an hour or so until the ammonia has evaporated. Then rinse with a dilute solution of glycerine and water, wipe off and dry. This handy idea is borrowed from the rubber industry.

# Marion Battles to Legion Semi-Finals with 5-4 Win Over Mansfield

## Victory Comes in 12th on Fumble; Favored Warren Team Is Foe in State Tourney Scrap Today.

CANTON, O., Aug. 2.—A scrappy Marion team, 5-4 victor over Mansfield in a 12-inning game yesterday, battles a favored Warren aggregation today in one of the semi-final games of the state American Legion Junior baseball tournament here. The victor will meet the winner of the Springfield-Middletown game in the finals Saturday for the Ohio championship.

Marion, trailing 4-3 going into the last half of the ninth, won yesterday's game without a hit. Pitcher Chuck Bowers, who yielded five hits before relieved in the 10th by Tom Barre, reached first in ninth on one of Mansfield's five errors. Two more errors enabled him to score, but Loren Willoughby who had walked was nipped at the plate with what would have been the winning run.

### Use Old Trick

A hidden ball trick killed a Mansfield threat in the 11th and a double play ended another threat in the 12th. Marion scored its winning run when Harold Garver walked advanced to second when Owen Cresson was hit by a pitched ball and scored when shortstop Phillips of Mansfield let Joe Roseberry a grounder get away from him.

Only two Mansfield runs were earned as Marion was guilty of seven errors. Two of Marion's runs were unearned. Barre allowed one hit and fanned two in two innings to receive credit for the victory.

### Marion Scores in 5th

Marion tallied three in the fifth. Bowers opened with a single and advanced as Willoughby grounded. Gene Shellhorn then singled, scoring Bowers. Tom McConnell walked and then scored when Shellhorn when Bob Reams doubled.

Weber, Mansfield catcher, was the victim of the hidden ball trick in the 11th. He reached first on an error and went to third when Ulrich singled to left field. Roseberry returned the ball to Willoughby at third who held it in his glove. Weber stepped off the base and Willoughby tagged him.

### Other Results

Middletown, Warren and Springfield joined Marion in qualifying for the semi-finals by winning yesterday. Middletown trounced Portsmouth, 13 to 6, Springfield surprised Lima, 7 to 6, and Warren blanked Zanesville, 4 to 0. Today's pairings pit Marion against Warren with Springfield meeting Middletown, the

## Motorcyclists To Race for State Titles Near Waldo Aug. 18

### Course Near Here Again Selected for Ohio Event.

Leading riders from throughout Ohio will converge on the course of Marion's Triangle Motorcycle club near Waldo on Sunday, Aug. 18 for the state championship races, it was announced today by Harry "Sonny" Copeland, club president. The club received word recently that the American Motorcycle association had again selected the club's course for the state events which were held there last year.

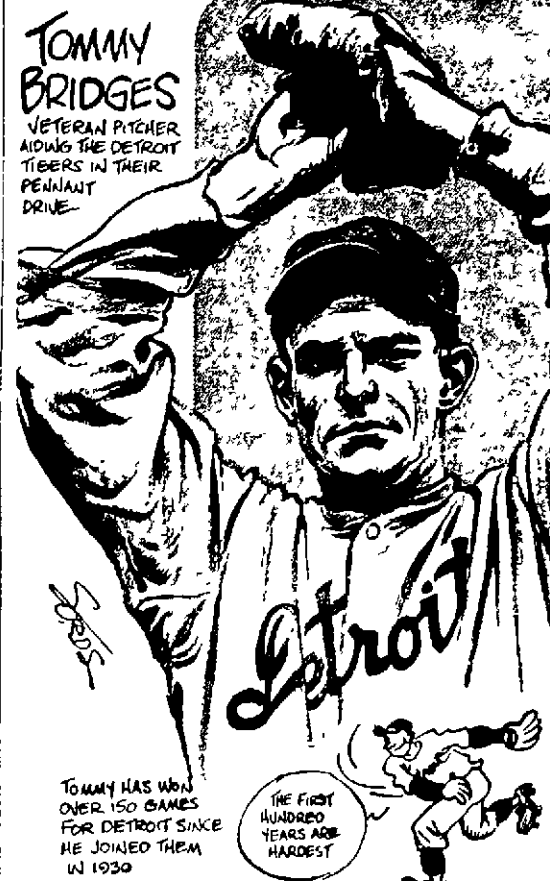

### Make Fast Time

It is a half-mile long and follows a curving hilly course, ideal for cycle racing. Despite the nature of the track, the riders average about a mile a minute. Copeland said.

Lewis Atkinson of Columbus is

member of the Triangle club, will defend his state title won last year in the expert division. There is no champion in the amateur division but one will be selected in the races here. The races will constitute what is known to the racing gentry as a four-star event, meaning that somewhere around \$300 will be split up in prizes. In addition, the winner of the expert championship will receive a trophy from the American Motorcycle association and the amateur winner will

## Keytown Strengthens Lead in Industrial Loop Title Race

A victory last night by Keytown coupled with a loss by Marion Steam Shovel sent the former a game and a half ahead of their nearest rivals in the Industrial league pennant race. The last moving Schlaret crew moved into a three-way tie for second place with Huber and the slipping Shovel squad. Union Bakery overwhelmed the Young Democrats in the other loop tilt.

The Keytowners demonstrated plenty of punch as they trounced the hapless Osgood aggregation 15-2 at Lincoln park. Harold Millison turned in a three hit performance for the league leaders as his team savored the Osgood pitcher 1 in Thomas with a 14-hit attack. It was the ninth win out of 11 starts.

Schlaret, the Industrial league's dark horse, chalked up its fifth consecutive victory by setting down the highly-touted Steam Shovel club, 7-4 at Garfield park. There are three teams a game and a half behind Keytown and within striking distance. The scrappy Schlaret outfit was never in danger as Cokie Weiss held the Shovel makers to seven hits while his teammates were nipping Fritz Walters, ace Shovel moulder, for eight safeties. Griffith slapped out a homer for the losers while Reimer made a complete circuit of the bases for Schlaret. Somelot Marshall and Holliday each contributed two hits to the winner's cause.

The Habesites stayed in the frays by blanking Defiance 6-0, at the Shovel grounds behind the three-hit pitching of their star twirler, Woodrow "Woody" Walters. The latter fanned 10 Defiance batters while his teammates were jumping on Ed Stinson for eight bingles. It was the fourth setback of the season for the cellar-dwelling Defiance team which has broken into the win column but once.

## Mar-O-Del Qualifiers Carded

Qualifying rounds of the Mar-O-Del course championship will start tomorrow and last through Sunday, Aug. 11, officials at the course announced today. Walter Hughes, winner for the last two years, will head a field of 32 golfers competing for the cup which must be won three times before becoming the permanent possession of any one player.

First round matches will start Monday, Aug. 12 and will be 18-hole match play. The finals will be 36 holes.

## Track Gets Treatment; 5 from Marion Club To Enter.

be given one, probably by the Triangle club.

### Triangle Entries

Entries from the Triangle club will include A. Martin of Kenton, Atkinson, Art Heck of Willard, Harry Belleville of Marysville and Copeland of Marion, all in the expert division.

The tri is all start at about noon and the program of races about 2 p. m., according to tentative plans. There will be races of about 10 laps each in four classes: 45 expert, 80 expert, 45 amateur and 80 amateur. The figures denoting the size of the engines.

High placers in these events will race in two final events for the state championships—one for amateurs and one for experts. Closing the program will be consolation races for amateurs and experts.

The races are open only to Ohio drivers.

## MARION TENNIS TEAM DEFEATS MT. GILEAD

### Turns Back Invaders 4-1, in First Home Match

The Marion tennis squad playing its first match on home soil this season turned back the invading Mt. Gilead hitters 4-1 yesterday at the Y courts. Tom Clark No. 1 man for the locals suffered the only defeat for Marion as his teammates had little trouble in the other three men's singles and two women's singles.

Clark stumbled before Filson S. Kaufman ace Mt. Gilead racquets winger 6-3 and 6-1. Ralph Carhart playing in the No. 2 slot for the winners swept two straight sets from Walter Virtue 6-2 and 6-3. Dr. R. E. Fisher after dropping the first set 1-6 to K. C. Virtue came back to win 6-1 and 6-3.

### COLUMBUS CONTINUES UPWARD DRIVE IN AA

The Columbus Red Birds, who in a month have climbed from sixth to third place in the American Association race, still are going up.

They cut another game off the second place lead Minneapolis holds by defeating Toledo yesterday 7 to 4 while the Millers were losing to St. Paul. The Birds take on Indianapolis in a double header tonight while the Millers are engaged in a single game with St. Paul.

Yesterday's victory was the fifth in a row for Columbus and their 23rd in 34 starts since their drive started early in July.

### LIMA STRETCHES LEAD

Lima stretched its Ohio State league winning streak to nine games last night with doubleheader victories over Fremont 8 to 4 and 10 to 9. Frank Biscan won his 18th game of the season in the second despite an eight run Fremont rally in the sixth inning. Findlay pounded Forsyth 17 to 6, while Tiffin out-batted Mansfield 12 to 9.

A \$2 story building, one of the highest in South America will be erected at Rio de Janeiro for a hotel and offices.

## Swedish Angel on Card for Monday Night Show

### Over-Sized Wrestler Who Resembles Prehistoric Man Booked Against Fred Carone at Arena.

A date with The Angel, That's the offering Marion wrestling promoters are giving matadors in this section next Monday night when The Swedish Angel otherwise known as Olaf Svenson transports his 250-pound bulk to the Uncapher avenue outdoor arena.

The monstrosity who has some right to the claim of being the ugliest man in the world comes here fresh from the metropolitan arena. His first appearance in a city of this size and in the half year that he's been touring America not a single foe has been able to floor him.

### Decides to Cash In

Olaf grew up as a steeple chaser and began cashing in on the busy deal by enlisting Mother Nature. He did a bit of grapping on the continent and learned early that his bulky frame and brute strength outweighed all the finer strategies of the veteran ringsters.

He doesn't seem to mind his deformities which include an oversized knob plunked down on a pair of massive shoulders and a pair of ham-like hands that can completely cover an opponent's face. And there's little reason why he should since the general public has been willing to pay heavily to see him go through an exhibition of wrestling that's mere child's play to such a gargantuan creature.

Olaf's unusual form, scientists tell us, are the result of unusual glandular activity which has caused or permitted certain parts of his body to grow out of proportion. The more sensational articles have described the rugged Swede as a throw back to the archaic man and perhaps a living example of the oft-mentioned "missing link."

It's supposed to be the 90 minute
